Digital Laboratory Prescription Forms

Standard forms tohelp clinics communicate restoration requirements and case information clearly.

Forms available

- Crown andbridge prescription form.
- Implant prosthetic prescription form.
- Hybrid and full-arch case enquiry form.
- Digital file submission details/checklist.

Information captured

- Clinic name,contactpersonand clinic case reference.
- Tooth number or region, restoration type, number of units and requested material.
- Shade, stump shade and relevant aesthetic notes.
- Opposing arch and bite record availability, scan file references and any physical impression or model included.
- Implant system, platform, scanbody identity and component information for implant prosthetic cases.
- Requested date, urgency request and special instructions.
- Confirmation by the dentist or authorised clinic representative that the prescription and supplied records are correct.

How to use the forms

- Usethecurrentversionsupplied by Ankhor.
- Complete all fields relevant to the case and mark items that do not apply.
- Attach the required scan files, photographs, impressions or models as appropriate.
- Use a clinic case reference consistently across the prescription, files and communications.
- Share patient information only to the extent necessary for case identification and laboratory processing, using the agreed transfer channel.

Scope and limitations

- Aprescriptionform records the clinic's instructions; it does not validate clinical preparation, implant position, occlusion, material suitability or patient-specific treatment planning.
- It does not replace the treating dentist's clinical records, informed consent, medical history or patient chart.
- Completion of a form does not itself constitute case acceptance or confirmation of a delivery date.
- Clinic-specific branding, custom workflow forms, translations or software integrations can be scoped and quoted separately.

Document use

- Forms are intended for use by clinics submitting cases to Ankhor Dental Lab. Please do not remove mandatory fields or alter the form in a way that changes the information required for case processing.
- Contact Ankhor if you need a current copy or have a suggestion for improving the form.

For appointments, current forms or case-specific enquiries, contact Ankhor Dental Lab through your usual communication channel.
